Customer Reviews

Not much to say, except this book is exactly as advertised and in this case that is a very good thing!

Just a perfect overview of the words you need to know.

I love it, the best hsk book i've bought.

It is very useful to have in one place all the words of each of the six new levels of the HSK tests.

Complete and straight to the point. I especially appreciate the index at the end of the book to assess which HSK level a word is. I just want to focus on words matching the level I prepare, before moving to the next one.
