Reaffirming the "greatness and inestimable value of human life," Pope John Paul II discusses in this encyclical letter the present-day legal, ethical, and moral threats to life.

The Gospel of Life is very informative, covering issues from fetal tissue research to abortion to euthanasia. It states clearly and concisely the Catholic Church's teachings on many of the life issues, and is helpful for understanding the reasoning behind them. Occasionally the wording makes it difficult to follow, but its message comes across loud and clear. Informative for Catholics and those of other religions alike.

Let me just say that I love this document. I read it with a highlighter in hand just so I could highlight every beautiful line--there are many. Never have I seen the Catholic standpoint on abortion, euthanasia, and capital punishment so succinctly and beautifully presented. This book is a must read for all Christians of all denominations. I can't begin to convey how great and life changing this book is--even if you already agree with everything in it about the present culture of death in the modern world. Pope John Paul shows himself to not only be an adept moral and theological thinker,

but somewhat of a poet as well.
