Customer Reviews

This guide is more of an article than a book. Only 36 pages, very brief and basic, contains info that can be found on any Sims Free Play forum or website and nothing else. It is absolutely not worth buying at all,didn't learn one thing I didn't already know. RIPPED OFF!

This is a very well formatted and written guide for the Sims game. Sims can be difficult to master so to have a strategy guide that helps is greatThe author knows how to explain in easy terms how to download play and become a better playerHighly recommended

It solves all my problems in the Sims with insightful and handy tips. I have used the guide for a while and so far love everything about the guide. Credit goes to the author of the guide.

I think this guide for Sims is really very good. The sims game can be quite difficult to master and gain levels in but with this guide it makes your play more interesting and you find stuff out you never knew about being a great player and getting more out of your virtual life

This is really an amazing guide & user friendly guide. It helps to play the game with more confidence & with more ease. Thanks to the author.
