William K. Kershner was a certified flight instructor, a naval aviator, and a corporate pilot. The recipient of many aviation awards, including the General Aviation Flight Instructor of the Year, he is the author of The Flight Manuals series.

This wonderful flight manual is a rewrite of the original by William K Kershner by his son, William C Kershner. It explains terms, procedures and other aviation concepts more simply and understandably than most I have read- And I have bought them ALL. This is the text I will use with my students. There are even lesson plans included for the flight instructor. Right now no "program" incorporates this book, so I call it the "sleeper" of the flight world. BUY IT!!!

Used a Kirshner manual 40 yrs ago,bought this one for my son,still tops for self study.Highly

recommended by this CFI and retired airline pilot.

I liked it but if you ask me the FFA publications are more detailed and have better diagrams to show you visually. I recommend just getting those publications in print

Great book

THIS MANUAL WAS THE MOST COMPLETE BOOK TO BE USED TO PREPARE SOMEONE TO TAKE A FLIGHT TRAINING COURSE. I AM A LICENSED PILOT, BUT BOUGHT THIS BOOK FOR A FRIEND OF MINE.

Extremely informative and a great addition to anyone putting in their hours. Book was thorough and in excellent new condition.

I love it.
