Customer Reviews

Book by Abbey, Edward, Hyde, Philip

I am a confirmed canyon country addict. Though I live on the East Coast, I have done at least 400 miles of hiking in this magical part of the country. Abbey captures the magic aura of the area in a way that only another devotee of the area could. Though the book is dated, it is still a great read for anyone who is captivated by the canyons of the Colorado plateau. The only reason I took off a star is that the photo reproduction is a little on the dark side. I don't know if this is because of the age of the photography, or if this later edition used second-generation versions of the originals. Highly recommended.
