## Customer Reviews

This text is required for Advanced Pharmacology for the graduate program and is packed full of information. A great learning tool, but would not lug such an enormous book around with me. It is packed with much needed information and a tool to use daily. It is packed with text, charts, and tables as well. Everything that as APN's will need in our practice.

Great

This was great value for a used book and it did arrive in a timely manner. It is such a heavy book, I

wish it were available on the kindle fire.

i find this very detailed, but still an excellent text, great visuals and diagrams, well written and readable

The book was as described, completely new and the shipment was very fast. It's really great to have a discount on such an expensive book, and even better since it's brand new. Thank you.
