Customer Reviews

Indispensable for traveling in north east Italy. We just came back from driving in the Dolomite and lake region and found it very accurate.

Michelin maps of Europe are always really good, and the one of NE Italy was no exception. We drove from Milan to Brenner Gap & on to Innsbruck by way of Lake Como and the back roads with their curves & switch backs. Great drive - great map

Invaluable for our recent road trip through Italy. Great detail. If you're driving, you will want this.

The map was correct for all roads/highways we traveled. The only downside is the large area it covers did not allow for enough detail in some areas. Perhaps breaking up the Northeast into two or three sections would allow for that.

Pretty detailed map. Should be very helpful for our upcoming vacation

as described

Love these regional maps. Plan your route using as many of the scenic roads (colored green) as possible!

Would have been better if it showed important visit spots such as the Strada delle 52 Galleries.
