## Customer Reviews

all the hits are here and they seem to be transcribed right. the only problem I have with this book is they don't have the chord grips shown above the music. So sometimes you don't know what type of a5 chord to play. open, fifth position, 7th position etc. sometimes as a rhythm part they are shown. good not great

this is one of the few eddie money song books that contain tab. eddie money wasn't known for stellar guitar riffs, but the guys that played on some of these tracks seemed to know their stuff. I would recommend this if your coverband plans on doing some eddie money tunes!!!!

A very helpful guitar tablature version, covering some of Money's most important recordings.
