## **Customer Reviews**

Book by Richmond, Scott

Bought for my husband, he loves it and reads it all the time! I can't really comment on the content as my husband is the one who reads it.

Interesting book, maybe a bit out of date but still very usefull to start getting an idea about fishing the deschutes.

By reading this book you will learn more about angling than by actually fishing. I was a self styled "expert" and taught many people how to flyfish on the Deschutes. This book is unique in that the true expert (the author) is not condescending, omits the egotistical ranting found in other "how to" books and does a great job of explaining things without mystifying the process. Before I take anyone fishing (spin, bait or fly) they now read portions of this book prior to the trip. Now my trips to the Deschutes with novices are much more fun, more relaxed and modest in the style of Mr. Richmond. When does the year 2000 edition arrive?

This is THE source book for those wishing to improve their luck on the Deschutes. Besides all the

information, Scott is a good writer, too.

All the information you'd ever want to fish on the Deschutes River. If you plan on spending any amount of time on this great Oregon River, you NEED to buy this book.
