We have got two pout pout fish books already and my toddler loves them (so do we - parents) but this book is disappointing (after heaving read the big books). I should have read the reviews beforehand. Its a mini book and not a full version and it seems more suitable for 0 - 2 years rather than 1 - 4 years as or the author suggests. Its a sweet book but very basic, no rhymes and very

short sentences. If you're just starting to establish a bedtime routine with your baby, this is great but its too young for a toddler. Luckily I am expecting again and will be bale to use this for my baby instead.

I was underwhelmed with this book, sadly. My daughter (18mos) LOVES the original Pout Pout Fish board book. I knew since this was a "mini adventure" it would be a shorter book with not as much of a story, but the book is literally 12 pages with one sentence on each page. It's good in the sense that a toddler isn't going to have as long an attention span as what might be necessary to last through the original Pout Pout story...but I was really disappointed at the basic nature of this book. It takes me about a minute to read it to my daughter. Overall, sure, it's cute, but the original board book is still our favorite.

We LOVE Pout Pout Fish at our house. This is a cute, short, simple story in the series. It is great for toddlers that are just starting to get into having a bedtime story read to them. This is one of the few stories that I am able to read to my 16 month old without him squirming. The pictures are cute, big and simple. The pages only have a few words per page which keeps my little one's attention. Definitely recommend.

What a cute little book. It's very short and an easy read, but my 5 month old loves the images and like that it's short because by the time we are getting ready for our bedtime routine, he's pretty over it and ready to sleep so this is a perfect addition to our bedtime stories. And little pout pout is just too cute.

This is our last book before bed every night. We got the original pout pout fish at our shower. I loved the book so much I got a bunch of others in the series. This is just a small little book not of the same length as the full books. But it is still cute and perfect for us.

My 1-yr-old loves "reading" this book before bed! I think he recognizes the main character from his older brother's books. So, it is a good set-up for more bedtime stories in the future with the amazing adventures of The Pout-Pout Fish!

These books are very cute, adorable and fun to read. My 11 month old Granddaughter absolutely loves, and laughs out loud when we read them.

The original Pout Pout Fish is one of the best children's book I have come across. This however, was not great. The story is very short and overly simple. The rhythmic flow from the original book is totally lost. I would skip this book and pick something more interesting. I'll give it 2 stars because the illustrations are still nice and I could make up my own story to go along with the pictures.
