Customer Reviews

This is a good book with a few minor flaws. A few of the puzzles are basically the same puzzle worded differently. A couple read as though they were poorly translated from another language. On the whole, though, they are interestingÃÂÃÂÃÂ ÃÂÃÂ and thought-provoking.

Pros: #28 is a great logic puzzle, the hardest in the book. There are also some interesting riddles e.g. #4. Cons: But there are many repeated puzzles with almost the same idea, and some just requires simple arithmetic, maybe those are ok for young kids. There are quite a few typos in the Answer. And some problems are not well formulated.

CAN'T LOCATE THIS IN MY APPS OR ON MY DEVICE? WISH I COULD WAS REALLY INTERESTED IN IT BUT TO NO AVAIL CAN I ACCESS IT. BUMMER :-(

My oldest son is 12 and loves riddles, puzzles and logic games and books. He recently went out of town for a week with his dad and he was so glad he had this book to fill time on the long journey. His dad was happy he got time off from playing 'I Spy' and travel bingo! It was a win/win!! Yay!

Poorly laid out, with Answers showing up first, followed by the questions. Not really "logic" puzzles because some details are left out of questions until you (surprisingly) see them in the answers. I wasted \$1 in cash, but much more in my time!

great book. Haven't gone through all the puzzles but it's a good mix of easy to hard puzzles. good for brain exercise. Also fun to sit down with the kids (10-11 year+) and have them figure these out.

it was great

The answers don't come up right on a kindle. Buy the book if you want to see answers.
