The Hidden And Untold History Of The Jewish People And Ethiopians

Synopsis

This book is about the hidden, forgotten and hitherto untold history of the Jewish nation and Ethiopians. It is about kinship and the longest friendship in the world dating back to the days of Abraham, the father of the Jews, and Melchizedek, the father of Ethiopians, high priest of the Most High God, King and builder of Jerusalem, 4000 years ago. It reveals with compelling evidence the history of the Jewish people found in ancient Ethiopic documents lost to the Jews and the world at large known as THE BOOK OF THE WARS OF THE LORD and JASHER, as well as the Bible and other literature. It is expected to contribute to and complete the otherwise incomplete Jewish history.

This book, The Hidden and Untold History of the Jewish People and Ethiopians helped me understand the connection between the Jewish People and the Ethiopians. Dr. Fikre Tolossa is an Ethiopian which increased my interest in reading his book. I focused my attention on Yisrael and saw the connection of truth and the connection between Ethiopia and Yisrael through history. I have been searching for myself. For I believe that I belong to the Ethiopian Jews and that I ancestors were scattered. I have found confirmation in this incredible work. I love the fact that this is a small book compact and filled with knowledge and history that helps me understand the Bible and myself. The God of Yisrael scattered his sheep to the four corners of the world. This book helps to connect with his sheep here in America and I believe throughout the world wherever they are found. The Ethiopians are an important part of the end time truth. I highly recommend this book to Black people who are looking for their heritage and for people who are desiring to understand biblical history of things that are not written in the Bible we read. (Flora Williams)

Now we know the rest of the story! Brilliant! This was truly a book that I read from cover to cover without pause. To the avid reader of scriptures, this book is an eye opener. I was often saying, okay, now I get it. What you may have suspected about the role of Ethiopia in the scriptures is made apparent. Thank you brother Fikre Tolossa.

Great book from great Ethiopian author! It is amazing how much truth is hidden from our eyes and the spotlight. This book references the ancient Geez scrolls discovered in the ruins of an Ethiopian church in Nubia. These Geez scrolls were part of books that was mentioned in the old testament .

For example Moses mentions the existence of Djan Shoa (The Book of The Wars of The Lord)

Selam/ĀfĀĭĀ ĒṯĀ Â ĀfĀĭĀ ĒṯĀ â ĀfĀĭĀ ĒṯĀ Â•ĀfĀĭĀ Â•Ā Âç I am known as Abune Mar ZeAgazeto Tsion Bereraheha of Mengiste Selassie ZeDekike Elias Mahber. The facts in this book are true. The main point is Ethiopians are the true Ayhud/Yihud (Jews). Our haymamot is Tewahedo not Orthodox Greek. But collectively we are Yihud/Ayhud. Not hidden. It's bwfore your very eyes

I really like this book, and it is compatible with my thought concerning Ethiopian New, more can be written but the way he presented his book is amazing. I am expecting to read the 2nd volume of this week. This book is free from collusion of the western world. I find it interesting and I will recommend to anyone who want to read this book...finally I really appreciate Dr.Fikre Tolossa for this outstanding book.

Very good read and a source for Jewish history buffs to put more research into. The part that explained how the Torah came to be was totally unexpected and puts clarity on how Ethiopian's and other civilizations were a living history of the bible, good and bad. The translation of names was a little difficult and requires a lot of research to confirm, but the history of tribal conflicts along with a divine quest makes the book inspiring. This book is very small for the subject but says enough to help your research.

Was excellent for the information I needed.

For some the history included in this book may sound controversial but, worth reading. I look forward for the publication of the second part.
