The 2-Step Low-FODMAP Eating Plan: How To Build A Custom Diet That Relieves The Symptoms Of IBS, Lactose Intolerance, And Gluten Sensitivity (Low-Fodmap Diet)

Synopsis

No more guesswork—go low-FODMAP for good food every day and lasting relief year-round

If you suffer from a digestive disorder, you're likely familiar with a long list of unknowns: I don't look sick, so what's wrong with me? What can I do to feel better? What foods exactly are causing me discomfort? Now, The 2-Step Low-FODMAP Eating Plan is here to answer those questions, provide delicious food that feels good to eat, and help pinpoint specific intolerances in less than eight weeks. Listen to your gut and go low-FODMAP—already proven the most effective dietary treatment worldwide for irritable bowel syndrome and other dietary conditions (including gluten, lactose, and fructose intolerances).

Dr. Sue Shepherd's all-new 2-step plan presents a reliable approach to identify what foods you can enjoy, and eliminate only those that cause symptoms (and that doesn't necessarily mean gluten!):

- First: Restrict FODMAPs (certain poorly absorbed carbs) to discover a new baseline of health.
- Next: Slowly reintroduce them, step-by-step, to learn which FODMAPs are tolerable, and in what amounts.

The Result: A custom-made eating plan with delicious food that will make you happy and healthier! With menu plans for adults, kids, vegetarians and vegans, anyone can do it. Dr. Shepherd also delivers a guide to shopping and how to approach food labels, travel information and tips for eating out, and over 80 crave-worthy recipes. Stop guessing what foods cause distress and start living symptom-free today!

With 80 gut-friendly recipes full of flavor and low in FODMAPs!

Breakfast: Pecan and Cinnamon Carrot Muffins

Light Meals: Roasted Squash and Ginger Soup

Main Meals: Moroccan Lamb with Lemon Spinach

Vegetarian: Four-Cheese Risotto

For Kids: Chicken Drumsticks; Lasagne

Desserts: Chili Chocolate Cheesecake

Sue Shepherd, PhD, is coauthor of *The Complete Low-FODMAP Diet* and author of *The Low-FODMAP Diet Cookbook*. She is the director of Shepherd Works, AustraliaÃ¢ "s premier private dietetic practice specializing in dietary conditions. A dietitian and senior lecturer at La Trobe University (Melbourne), Dr. Shepherd is an invited speaker at national and international medical conferences and has authored over 20 medical journal papers. She is also the consultant dietitian for the Medical Advisory Committee to Coeliac Australia and is a Fellow of the Rome Foundation. She herself has celiac disease.

This book and its recommendations really helped my wife and I. She was diagnosed with an intestinal problem that left her running to the bathroom a lot. By changing our diet based on what we learned in the book we are now back to living a normal life. We make our meals differently as we think differently and they all taste great! The book has a lot of great information as well as recipes. I would recommend this book to anyone.

wonderful book for anyone with IBS-D!!!Very Informative as well

The book has a lot of advice. There are so many books out on FODMAP Diet, it is difficult to find a book that covers everything. Since the price is right on most of these books. I have been purchasing a few different. The FODMAP diet can be a difficult diet, especially when introducing foods back into

your diet. So it is always a good idea to have as much information as you can before you start.

Mom loves it - easy to follow, simplifies the information.

Fantastic system for those of us with IBS. Dr. Shepherd has provided us with a wonderful tool.

Recipes are very good!!!

Excellent service, THE book on the FODMAP diet.

Helpful but a little complicated. Gave me a good idea what foods to look at and then I could see if my body reacted to them.
