U.S. Army Ranger Handbook

Synopsis

This handbook offers the techniques and tactics that make Army Rangers the best soldiers in the world. These highly-trained, easily deployable, and widely-skilled infantrymen specialize in airborne assault, raids, recovery of personnel and equipment, and airfield seizure, among other difficult and dangerous missions. Drawing from over two centuries of bloody lessons learned in special operations combat, this guide gives modern soldiers the best advice possible. In straightforward language and a no-frills style, it covers deception, stealth, communications, escape and evasion, ambush operations, perimeter defense, counterintelligence, and much more. Handy and concise, this manual was designed so Rangers could easily carry it into the field. Now it is the ultimate resource for anyone who wants to know how Rangers think and work.

Customer Reviews

This book is not to learn small unit tactics.. This is a legit handbook I'd expect to get at ranger school. There are small unit tactics, oh to use sights, map reading etc. but a lot of back office military report structure, continuity of command, order types etc. Interesting if that's what you want to learn

but this is not going to giving to a crash course in military tactics. That's like 1/20th of the book.

Seemed strange

good reading

Great read and very useful info.

Just like I remember.

EVERY ROTC CDT SHOULD BUY THIS

Words are way to SMALL and it's very hard to read.

The words in my book were printed in a tiny format, with plenty of space on top and bottom of every page. But i figured the information is what matters.
