Hayao Miyazaki is the prominent director of many popular animated feature films. He is also the co-founder of Studio Ghibli, the award-winning Japanese animation studio and production company behind worldwide hits such as PRINCESS MONONOKE, HOWL'S MOVING CASTLE and SPIRITED AWAY.

Cute and colorful for all ages. The pages are durable enough and captures the most important moments in the film making it visually pleasing. The book is great and really speaks for itself. Excellent as a gift. Must have for all fans as well :)

I already LOVE the movie. So I already had high expectations of the book. When I received it and immediately browsed through the pages, I was thoroughly amazed at the clear and beautiful

pictures taken from the movie and the precise written storyline in the book. I will Absolutely buy other "Picture Books" of Miyazaki's anime movies. If you LOVE Miyazaki's anime movies, the "Picture Books" are a great addition.

Get to enjoy the story in a whole new way. The only book I like to read to the kids anymore

I love the movie and i heard that there was a book so I found this one. It was way bigger than I thought it would be.. thickness not like gigantic but I figured it would be just like a 19 page kids book. But it's better than that. Great color and pics. Nice description of characters in the beginning of the book and wonderful story.

We have been reading this with our three year old toddler. So wonderful!

A great movie companion book, but really, if you are in love with the movie, please read the original book by Diana Wynne Jones's Howl's Moving Castle, or really the whole series, her fantasy is even more amazing and intriguing than the Miyazaki movie. This book is full of pictures, set up with minimal text like a graphic novel. My 2 year old and 11 year old love this all the same, and love having the stills of the movie to look through all the details in the artwork. Fairly heavy, and high quality all around. Would be a great gift.

My son loved the movie so my wife bought him the book. Price was good and reasonable shipping time.

This is a beautifully illustrated retelling of the movie. My 6 and 2 year old love all of this line of book. This is the movie simplified and illustrated. It has words but not too many which makes it good for kids learning to read like mine.
