Customer Reviews

"The book easily achieves its goals of providing a comprehensive overview of a variety of disease processes in a quick to read format. This is a good resource for the point-of-care learning that our current work environment requires." -Tara Catanzano, MD (Baystate Medical Center)

Doody's Score: 93 - 4 Stars! "This is a sumptuous book of well over a 1,000 pages

and with over 2,500 excellent illustrations. The ultrasound images are generally of very high quality. The book is beautifully produced and great care has gone into making the experience of using it enjoyable." -Dr. Philip Shorvon, RAD Magazine (August, 2016)

I really enjoy using this comprehensive reference book. Each case example is laid out in a methodical manner. The examples are beautifully illustrated.
