James R. Gillespie has extensive training and experience in the field of livestock production and agricultural education. He received his BS and MS degrees in Agricultural Education from Iowa State University and holds a degree as an Education Specialist in School Administration from Western Illinois University in Macomb, Illinois. Now retired, he was employed by the Illinois State Board of Education, as a Regional Vocational Administrator. Mr. Gillespie is a member of Phi Delta Kappa and the Honor Society of Phi Kappa Phi.

I ordered this book for my college animal industry class. I got the book right on time - the first possible day I could've gotten it. For being a used book that was labeled "Fair Condition" I was amazed to find it almost brand new! I started going through it and realized that not only was it the book I needed for my college class but it also gave information on animals I have and work with. Since I'm now a 9 year member of 4-H for the small stock project (pygmy goats, chickes, rabbits,

and guinea pigs) plus I'm also involved in the market beef and dairy goat projects. In this animal science book I found extensive information on cattle, horses, swine, sheep, goats, rabbits, chickens, and a number of other animals like bison, alpacas and ostriches. This is probably one of the most helpful books I've ever bought and its dual purpose - class and 4-H!

Great condition too!

Awesome

The given description of the product was very exact. I got exactly what I expected
