Gross Out!: Animals That Do Disgusting Things (Penguin Young Readers, Level 4)

Synopsis

Did you know that the horned lizard squirts blood out of its eyes to scare off predators? Learn more about this creature as well as the leech, the naked mole rat, the hagfish, and many more creepy critters in this sickening and super science book. Not for the faint of heart, this revolting reader will be a favorite among boys and everyone interested in the strange and unusual!

Customer Reviews

Ginjer L. Clarke has written many books for Penguin Young Readers, including [Freak Out!](#) and [Watch Out!](#)

Great Read.

My boys love this book and all the revolting little factoids it contains. My son had a gently-used book exchange at school and since we really don't have a huge library to choose from, we told him he could take his favorite to exchange and that we'd buy him a new one to replace it. He was so excited to share it and the recipient was very happy, as well. A very fun book!

One more book I got under the auspices of a gift for my grandkids, but I really wanted to read it. I read it first and then gave it to them. They and their parents found it fun to read, as did I. Cool pictures, too.

Awesome book for 1st-3rd graders. Appeals to their sense of the disgusting.

Great facts!

Purchased for my 7 yr. old granddaughter, she loved the book. She has requested I purchase her Freak Out and several other books by this author. I love that she is asking for books, reading is one of the things that we share together.

My son just love to read fact about animals. This was a good book for him, somethings he already knew some others he learned.

I loved the recipe for the owl pellets at the end of the book - a great treat for the kids.
