Live & Work In Belgium, The Netherlands & Luxembourg (Living & Working Abroad Guides)

Synopsis

Belgium, the Netherlands and Luxembourg are among the most prosperous countries in the European Community, and yet little is known of them by most British people. This is a situation that should be remedied in 1993 because they offer great scope for employment both in their healthy domestic industries and in the international organisations that are based there. This book gives all the information needed by anyone intending to live and work in the Benelux countries, with essential information on finding work, and facts on the historical and cultural background, daily life and buying or renting accommodation in each country.

Customer Reviews

If you live in the USA, this is a fine book to get you pointed in the right direction. However the book is really written for British or Irish persons. Most of the information is dependant on your being a citizen of an EU nation.
