The Legend Of Zelda: Ocarina Of Time -Legendary Edition- (The Legend Of Zelda: Legendary Edition)

Synopsis

A young boy named Link must defeat evil at every turn on his long, perilous quest to find the Triforce and deliver it to Princess Zelda! The Legend of Zelda: Legendary Edition contains two volumes of the beloved The Legend of Zelda manga series, presented in a deluxe format featuring new covers and color art pieces by Akira Himekawa. The battle for Hyrule and the Sacred Realm has begun! A young boy named Link must defeat evil on his long, perilous quest to find the spiritual stones that hold the key to the Triforce, and deliver them to Zelda, princess of the land of Hyrule. Young Link embarks on a perilous quest to find three spiritual stones that hold the key to the Triforce, the wielder of which will rule the world! Link's plan is to deliver the stones to the Princess of the mystical land of Hyrule, Zelda. But obstacles abound and his long journey has only just begun!

Customer Reviews

Akira Himekawa is the creator of the best-selling The Legend of Zelda manga series, a 10-volume collection inspired by several games and story arcs in the Zelda video game series.

Great compilation of both volumes of Ocarina of Time manga. Has colored pages and is formatted to be a collector's item along with the rest of the Zelda manga coming up through the year. Don't buy

if you already have the box set, unless you care for larger pages, colored pages and collector's format.

The book came in very high very high quality and I really love it its definitely better than the original manga.

First of all it's a manga so it's supposed to be backwards, sorry but that was a dumb ranting review, look up your info before buying or reviewing. Anyway this is a fantastic book and a great addition for my Zelda collection! Happy 30 years of Zelda!

First off, I have a picky nature. I feel like I would give this a 9.5 out of 10 (95%) considering how much I really love it and precisely. The story, in my opinion, is better, yet more developed than the game is. Though it's easier said considering this book was published like 8-10 years post-game giving the authors time to think. Still, the story is awesome and my personal favorite about it is the relationship between Link and Zelda (ZeLink). The game probably agrees with it too but on a "lighter" scale. It relates to Skyward Sword in a way since Link saves Hyrule only because he...Zelda (sorry, I'm trying not to spoil). The book also has great humor to go along with the touching scripting of the story. The only drawback that this book has is that it has a couple of plotheoles. These include Impa not being introduced as a sage yet suddenly appearing in the chamber of sages. Another hole is when Link enters the Water Temple out of the blue. At first, he is headed to the desert but apparently decided to drop by this temple with no transition between travels. A third one could be at the very end when he becomes a child again. Can't tell if Navi or Zelda used THOSE words.

After getting used to read from right to left back to front they were fun books to read. These books explained alot to me about the games. They make the games more interesting to play.

Arrived in great condition! I like that the child and adult volumes are in one edition now.

For fans of the game that would like some more meat on the already great story this is a great choice. There's action, humor, and amazing art. Many of the covers and single frame pages could easily be made into posters. I will admit Link is portrayed as your basic anime protagonist, but there is a reason the character type persists. I read this with my 5 year old son and he loved it, save one

storyline that had him crying for a good while but wouldn't let me stop reading, pet owners beware. Highly recommend this for Zelda fans.

Beautiful book and manga, excellent drawings and quality, totally a must have for any Zelda fan.
