Customer Reviews

Daniel Nunn has written numerous books for young readers on a variety of topics, specializing in early years and elementary education. Like Eddie the Elephant, he enjoys playing hide and seek with his two young children. His favorite hiding place is behind the curtains in the living room!

A really fun book. My daughter loves the pictures of the animals. The text itself is very clever and it does indeed introduce some math concepts.

Book on animals to describe the differences between big and small allows for conversation! great for a beginning text for toddlers
