# I Can Name 50 Trees Today!: All About Trees (Cat In The Hat's Learning Library)

## **Synopsis**

While stopping to admire some of the world's most amazing trees, the Cat and Co. teach beginning readers how to identify different species from the shape of their crowns, leaves, lobes, seeds, bark, and fruit. Kids will learn about many trees common to North America.

Grade Level: Preschool - 3

## **Customer Reviews**

Our grandkids love these Cat in the Hat Learning Library books. They've become favorite for both our 2 1/2 and 5 year old. The rhyming sentences impart lots of new information for kids in a delightful way.

nice book for my country girl Granddaughter wh loves the outdoors

The books I ordered are GREAT. They were, however, cheaply packaged! The day they were dropped off at our house, we were out of town and it rained heavily all day! They were loosely wrapped in folded corrugated box material and the books got damp which wrinkled the pages.

Awesome book for starting to teach youngsters about trees and identifying them by the bark and leaves. My boys love this book! A little wordy, but I try and read a few pages a night to them so it's not overwhelming as they are 2 and 4. For a 6 year old it could be read all the way through probably.

I brought this book for my granddaughter, the nature buff, for her birthday. She enjoys collecting leaves and equally enjoys having the book read to her. I can't wait until she is old enough to read it on her own.

Great book for my nieces.

Jim now has this little book, little book, Jim now has this litttle book the TREES are glad for me.

Not quite a guide book but a good way to get young kids interested in learning more about how to identify trees.
