The anchorage ,s that he sugjusted wher to small for a boat over 30 ft thay ar fine for a boat 30ft ar smaller but we were in a boat that was 46 ft 12ft beam and 4 ft draft but the rest off the information was good

We bought this guide in digital format and the claim was that it was updated yearly. We are currently doing the loop and started in Nov of 2013 and bought this guide in its updated 2013 edition.Much of the information was out of date. Anchorages were frequently out of date and no longer were viable

or shoaled in completely. A few of the marinas no longer existed and haven't for years. I would not recommend this guide as any kind of stand alone. I would take its contents with a grain of salt. I'll still give it a 3 because it does have a lot of useful information, but this reader is advising extreme caution.
