My daughter has has trouble reading in first grade and I've struggled to find age appropriate books and ones that she enjoys. This book was fun to read and simple. It's leveled for pre k to Kind. So I started her know bc she's behind but just really enjoyed this!

I love the Barbie books. My daughter loves them too. This level is easy enough to each her to read and doesn't have too many words that might lose her interest.

My daughter loved all Barbie books we got. She doesn't really care to play with barbies but likes reading those books. She was so excited she read them all by herself.

I like that several words are repeated. My four year old enjoys recognizing words and "reading"

them. What a great book!

gift for nice

My daughter loved it.

We didn't give this a full 5 star rating because while we thought it represented the "Barbie" icon just fine and the graphics were quite nice, we felt it was a too short. A little bit of interaction built in would have been extra cool too, but then it wasn't too expensive either.

Nice book
