Psoriasis - Treatment With Homeopathy, Schuessler Salts (homeopathic Cell Salts) And Acupressure: A Homeopathic, Naturopathic And Biochemical Guide

Synopsis

Psoriasis is a chronic inflammatory skin disease. The immune system mistakenly activates a reaction in the skin cells, which speeds up the growth cycle of skin cells. Psoriasis symptoms are raised, red, inflamed lesions, silvery scaly plaques, dry skin that may crack and bleed, pitted nails or separation from the nail bed, small, red, individual spots and itching, burning or soreness of the skin. Common triggers include stress, infections, an aridification of the body, hormonal disorders, skin lesions and injuries, bug bites, sunburns, environmental toxins, cold, smoking, alcohol, certain medications and a lack of folic acid. There are several types of psoriasis, including psoriasis vulgaris, guttate psoriasis, inverse psoriasis, erythrodermic psoriasis and pustular psoriasis. Symptoms vary depending on the type of psoriasis the patient has. Plaque psoriasis, the most common form of psoriasis, causes itchy skin spots, red patches, and thick flaky lesions to form. Psoriasis can also affect the joints (psoriatic arthritis). Psoriasis is not contagious. A predisposition for psoriasis is inherited in genes. In this homeopathic and naturopathic adviser, I will give you recommendations how to treat psoriasis with Homeopathy, Schuessler salts (also named cell salts, tissue salts, Biochemistry), herbal tinctures and Acupressure. I will present you the most proven homeopathic remedies and Schuessler salts, including the appropriate potency and dosage. I wish you much success, joy of life and especially your health. Robert Kopf
