Intensive Neurosurgery Board Review: Neurological Surgery Q&A

Synopsis

Intensive Neurosurgery Board Review, the ultimate Q&A review for the ABNS exam, offers 1,300 questions written in the format of the neurosurgery written examination. For each question, a detailed explanation of the correct and incorrect answer options is provided. An essential review for residents across neurological disciplines, this book is broken down into coverage of neurosurgery, neuroanatomy, neuropathology, neuroradiology, clinical neurology, neurobiology, and critical care. Featuring hundreds of high-quality figures as well as high-yield tables, this essential review book concludes with a 300-question multidisciplinary self-assessment examination for an exam simulation.

Best Sellers Rank: #1,033,515 in Books (See Top 100 in Books) #107 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Surgery > Neurosurgery #153 in Books > Medical Books > Medicine > Surgery > Neurosurgery #497 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Sports Medicine

Customer Reviews

Journal of Neurosurgery, 28-SEP-06, Volume 105 --Journal of Neurosurgery, 28-SEP-06, Volume 105 -- "A comprehensive review of all of the topics covered in the examination. The book boasts hundreds of high quality figures similar to those that appear on the actual examination. What sets it apart from its competitors in neurosurgery boards review preparation is its highly detailed explanations of the correct as well as the incorrect answer choices, supplemented by figures, illustrations, and high-yield tables. Moreover, the book concludes with a multidisciplinary, 300-question self-assessment examination that may be a useful preparation tool for the resident. This is an essential review guide for residents across all neurological disciplines, not just those whose focus is neurosurgery."

Thomas G. Psarros, MD is a 6th year neurological surgery resident at The University of Texas Southwestern Medical Center in Dallas. He has a Clinical Fellowship appointment next year at Brigham & Women's Hospital and Harvard Medical School. He graduated from The Mount Sinai School of Medicine in NY with Honors. He passed the written Neurosurgical Board Exam with 96%. Shawn P. Moore, MD is co-author and is a 5th year neurological surgery resident at The University of Texas Southwestern Medical Center in Dallas. He authored The Definitive Neurological Surgery Board Review which Thomas edited. Dr. Moore graduated from the University of Kansas School of MEdicine with a GPA 4.0/4.0 and class rank of 1 out of 174.

Clearly a second-hand copy of the original publication. Paper is low quality. Text is grainy, and evidence of highlight marks from the original pirated text are clearly visible. Pictures are even more difficult to interpret than the already low quality of the original pictures. The book is functional, and a necessity for board review, but this edition/source is far overpriced for the quality of the material.

Good content, but the book is obviously a pdf that has been printed out and bound. Many pages have highlights embedded in the printed document. If I would have known this was simply a bound knockoff of a pdf, I would have pirated it online rather than spend \$80 on a "new" version.

Probably the best board review book out there in my opinion, although there are clear errors in it. You will definitely need to reference other text books to ace the neurosurgery boards. It is not a stand alone book in my opinion (nor should it be!).

Excellent source for any neurosurgery resident. I used it to study for board exams and have found it to be the best question book out there for ABNS.

Excellent

board style questions that accurately simulate the real exam
