## Synopsis

The world prepares for war. Creatures out of a nightmare press south. And only a few will be able to stop it. Roelle leads the Magi north to discover the secrets of the northern warriors known as the Antrilii. What she discovers forces her to question the role the Magi play in the world as she begins to realize how far they have drifted from their Founders. Rumors out of the north are much worse than she could ever imagine and her Mage Warriors might be key to stopping a threat the world hasn't seen in a thousand years. Jakob has reached Avaneam with the mysterious trunk only to learn that his journey has just begun. What he discovers in the Unknown Lands will be the key to the upcoming battle, if only he can survive it. His visions continue and Jakob learns there is more to them and him than he had known. Can he understand his growing abilities in time?

## Customer Reviews

I did enjoy this book as it answered a few questions from the previous book but I agree with other readers it seems to jump all over the place. I don't have a problem with that other than I think we need to spend more time at each storyline. I got bored with any of the delegate stuff and honestly skimmed some of it to get to the Jacob chapters, Roelle chapters and Airlyn. I'm sure the third book will be awesome as this is a great author. I also finally got over my expectation this series would have a lot of magic like the cloud warrior saga as this is obviously a very different storyline. Overall it's worth the read.

Compared to part 1, the 2nd book is low on action as the storyline is spread accross 10 characters. So the main charater is almost inactive and the story just crawls. A lot less entertaining compared to book 1

This book picks up were the last left off. There are also new characters and plot twists. I really like this story it is very entertaining and i can hardly wait to read the next book!!!ÃfÃ Å,Ã ÆœÃ Â•

D. K. , Your imagination never ceases to amaze me. I love your stories; however, I do not love the time span between the different books of the series. I find it takes me a couple of chapters to get reacquainted with the story line and characters. I highly recommend reading your stories to everyone interested in reading great stories. This particular book started with an introduction which was not edited very well and requires your attention.

I never write reviews but I was disappointed in this one. Started out good but I can't believe it ended like it did. I went to turn the page and it went right to the page to purchase book 3. I thought my tablet did something wrong so I backed up a page and flipped forward again butt it went right to the next book again. Not sure if I'll keep reading.

I love anything he writes
