Customer Reviews

There is so much to say about this series but I don't want to spoil the beans. Its enough if you know that you won't regret picking the book of this series up. The constant turns and twists are amazing and mind-blowing! Strongly recommend if you liked the first two volumes!

This volume was amazing. I mean you really get to see that humanity is desperate and scared of what Eren has become. Also a huge counterattack is happening at the end of the volume, thus leaving a huge cliffhanger. Anyways this is great series with lots of horror and action :).Story: Well the story is definitely did a 180 twist on us. I wasn't expecting the author to do this kind of change up

on us. The story is definitely evolving and some interesting points are made in the story. Eren is definitely becoming the main protagonist of the story, but Armin who is Eren's best friend is definitely changing in a more positive way. 4/4 Character development: Eren is now a shaper basically. He can shape into a titan and basically kick all other titan's butts. Armin is the star of this volume. He is becoming much braver, and he is also extremely intelligent. 3/3 Artwork: The artwork is always amazing, and it's basically a pleasure to view it. 3/3 Overall, another solid volume and I hope more people begin to read this series because it's awesome. This manga has potential to be the best I have read in years. 10/10.

The best thing I can say about this volume is that it keeps the story going. It maintains your interest and ends in a way where you immediately want to start the next volume...which I did. I've yet to read an AOT volume that has disappointed me.

My daughter reads it over and over and takes it with her everywhere she seems to love it.

Perfect, another great story of Attack on Titans. I like the book a lot.

My Grandson hates to read, but he really enjoys reading them.

Great!
