Best Sellers Rank: #1,402,491 in Books (See Top 100 in Books) #79 in [Books > Textbooks > Medicine & Health Sciences > Alternative Medicine > Holistic Medicine](#) #788 in [Books > Textbooks > Medicine & Health Sciences > Nursing > Fundamentals & Skills](#) #1215 in [Books > Health, Fitness & Dieting > Alternative Medicine > Holistic](#)

Customer Reviews

Scope & Standards of practice

Just what I needed. I received this book in excellent condition...no problems. Would order from source again. This will help me to prepare for my BHN-BC.

This is a wonderful book returning nursing to its roots of compassionate, whole person care, while embracing wellness-based, non-invasive, nursing practices for the 21st century. This text provides useful standards for today's nurse interested in understanding how holistic methods can fit into self-care, as well as patient care. I think if Florence Nightengale were with us today, she would be one of the leaders in this movement!

Alas, this book -- a collaboration between the ANA and the American Holistic Nurses Association -- has turned nursing into an official quack profession, more like a secret mystical order. It makes me bitterly ashamed to be a nurse. Florence Nightengale would turn in her grave to see the profession turn its back on reason and science.
